Web Development Project at University of Patras, Patras, Greece

January 2022 — June 2022

This project is a two people project which we have been assigned to create a website for "Book lending from Greek libraries"

Python Project at University of Patras, Patras, Greece

October 2018 — January 2019

My team and I we were assigned a project as part of the semester to come through creating a "Booking ride and seat selection of a bus" application

DJ Mike T, Limassol

January 2023 — August 2023

<https://alexandrosstav99.github.io/DJMikeT>

In order to demonstrate my skills and gain some experience in my field before I land a job, I decided to create a website for my friend in order to advertise his work. I was fully in charge of front-end and back-end development of the website.
